

"Keep Everyone Safe!"

By Kian Padilla-Serra, Christian Sperrow, and Elijah Bicaldo

Be Responsible!

In our community, we need everyone's collaboration to keep everyone safe from Covid-19. Do not engage in outdoor activities and stay home, if you're sick!

The Covid Situation

According to the health department there are around 16,000 cases for Covid-19 every day. Covid-19 can affect anyone, and can cause symptoms from mild-severe. Please read the instructions below for safety guidelines.

Wear Your Masks!

To help be safe during this pandemic, please do not refuse to wear a mask because it will help keep our community and the people around us safe. Make sure to always bring extra masks with you too because you might just need another mask.

Keep Your Distance!

To help keep everyone safe during this pandemic, try to stay away from other people and try not to leave your home unless you really need to. Do not attend gatherings with more than 5 people because you might affect others or catch the disease. Also remember to stay 6 feet apart from others.

"How To Celebrate During Covid-19"

Limit Travelling

Since Covid-19 can spread rapidly it is very important to not travel just in case you, or the people you are visiting have Covid-19. You are still able to see your family and friends online. Check below for More details.

Communicate Online

To limit the spread of Covid-19 and talk to your family and friends that you don't live with, instead you can talk to them online! There are many apps today like FaceTime and Zoom that can allow you to talk to your family and friends without being in person.
